Professional Summary

Software Engineering student at the Federal University of Technology Owerri (FUTO) with hands-on experience building Flutter applications, web interfaces, and fintech-focused products. Interested in cross-platform development, scalable software systems, and clean user-centered design.

Technical Skills

Flutter, Dart, Firebase, Git, GitHub, HTML, CSS, JavaScript, REST APIs, UI/UX Design

Projects

AfriPay MVP

Cross-border fintech application focused on African transactions, currency conversion workflows, and secure wallet-style user flows. Built with Flutter, Dart, and Firebase.

Primus School Fees Management & SMS Automation SaaS

Concept and prototype for helping schools manage fees across classes and automate parent-school communication. Designed with Next.js, TypeScript, Supabase, and SMS workflow automation.

Portfolio Website

Personal portfolio website showcasing engineering projects, technical skills, and professional presence. Built with Flutter Web and modern responsive UI practices.

Experience

CTVET SIWES Intern (Oct 2025)

Learned and built websites during industrial training and gained practical exposure to web development workflows.

Education

Federal University of Technology Owerri (FUTO)

B.Tech, Software Engineering

Expected Graduation: 2028

Current GPA: 4.2/5.0

Courses & Learning

- Flutter & Dart Development
- Firebase for Mobile Applications
- Responsive Web Design

- REST API Integration
- UI/UX Design Fundamentals

Additional Information

Actively building a professional software engineering portfolio with Flutter Web and modern responsive design practices.
